**Re: Partial Approval to Commence Construction**

Dear Ms. Tonery:

I partially grant your request, filed August 22, 2014, for Freeport LNG Development, L.P., FLNG Liquefaction, LLC, FLNG Liquefaction 2, LLC, and FLNG Liquefaction 3, LLC (collectively referred to as Freeport LNG) to proceed with the initial site preparation of Freeport LNG's Liquefaction and Phase II Modification Project. I grant you authorization to start construction of the Pretreatment Plant, the Liquefaction Plant, and the Phase II Modification Project with the following exceptions for which all conditions of the Commission's July 30, 2014 *Order Granting Authorizations Under Section 3 of the Natural Gas Act* (Order) are not satisfied:

- no site preparation may begin for the 26-inch-diameter unloading/loading line until Freeport LNG complies fully with Condition No. 29 of the Order;
- construction of the Pretreatment Plant electric line and the Pipeline/Utility Line System may not commence; and
- related ancillary areas for staging, storage, and temporary work areas (including the Seaway Dredged Material Placement Area and new or to-be-improved access roads) may not be used.

We have confirmed the receipt of all federal authorizations relevant to the approved activities herein. Please note that this approval does not grant Freeport LNG the authority to commence construction of the facilities specifically excluded, above.

I remind you that Freeport LNG must comply with all applicable remaining terms and conditions of the Commission's Order. If you have any questions, please call Eric Tomasi at (202) 502-8097.

Sincerely,

James Martin, Chief  
Gas Branch 3
